The Asian Journal of Kinesiology

The Asian Journal of Kinesiology

Aims and Scope

Kinesiology is an academic discipline which involves the study of physical activity and its impact on health, society, and quality of life. The aims of the Asian Journal of Kinesiology (AJK) are to provide recent scientific findings and offer practical knowledge for the kinesiologists, which includes health fitness instructors, personal trainer, strength & conditioning specialists, athletic trainers, exercise physiologists, clinical exercise specialists, sports therapists, kinesiotherapists, physical education teachers, etc. The AJK features original investigations, clinical and case studies, rapid communications, and comprehensive reviews on current topics in physical activity and evidence-based exercise prescriptions. The journal provides a platform to share an informative and exciting new discovery about basic and applied sciences in specialized fields of Kinesiology such as Exercise Training, Health Promotion and Physical Fitness, Prevention of Athletic Injuries and Disease, Sports Rehabilitation, Clinical Exercises, Physical Education, Health and Sport Industries, and Others.

Contents

Editorial

- 1** | **Renewal of Sport Science in Sports Field**
*Kijin Kim**

Original Research

- 4** | **Differences on Thigh Muscles' Activity by Types of Squat**
*Seong-Jun Cho, Mi-Ock Han, Eun-Hye Choi, Jirakit Siripatrawan, Hyung-pil Jun**
- 16** | **Neither Aerobic Interval nor Circuit Resistance Exercise Acutely Enhance Glucose Tolerance in Healthy, Young Adults**
William A. Braun, Nathaniel Helwig, W. Jeffrey Armstrong*

Case Study

- 25** | **The Analysis of the Risk of Metabolic Syndrome and Physical Activity Participation in Stroke Patients: The National Health and Nutrition Survey (8th, 2019-2021)**
*Chulmin Choi, Eonho Kim**

Original Research

- 34** | **A Study of Characteristics of Musculoskeletal Injury in Female Elite Junior Golfers**
*Kwang-Jun Kim, Dong Hyun Yoon**
- 41** | **The Effects of Different Breathing Techniques on Lower Extremity Muscle Function and Postural Stability**
*Gwangyeol Baek, Yun-A Shin, Kun-Ho Lee**
- 48** | **Effects of 12 Weeks of Moderate-intensity Continuous Exercise and High-intensity Interval Exercise on Cognitive Function in Elderly Subjects**
*Byung-Ki Jung, Kijin Kim**
- 59** | **Analysis of Body Composition and Physical Fitness Variables of Korean Middle School Students: National Fitness Award (2018-2022)**
*Dong Hyun Yoon, Kwang-Jun Kim**
- 65** | **Effects of Blood Flow Restricted Resistance Exercise on Recovery Blood Flow under Various Environmental Temperature Conditions**
*Yunbin Lee, Somang Son, Somi Yun, Yongsuk Seo, Dae Taek Lee**

Review

- 72** | **Effect of Kinesio Taping Application on Exercise-induced Muscle Damage: A Mini Review**
*Dae-Yeon Lee, Jooyoung Kim**

Original Research

- 79** | **A Comparative Study on Gender Differences in the Effects of Self-myofascial Release Using a Foam Roller on Soft Tissue Stiffness and Joint Range of Motion**
*Se-Young Seon, Kwang-Jin Lee, Keun-Ok An**
